

Pre-install considerations

- P3 Bunn ICB requires a 600 mm deep counter top for machine to sit on.
- Requires space behind to accommodate connections that pass through the worktop.
- Ensure there is undercounter space available, as detailed on following pages.
- Power and other requirements may differ by configuration. Consult icons on each setup.

Icons explained

Look out for the below icons on the following pages that detail install requirements per setup.

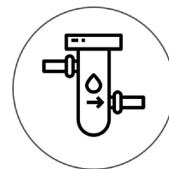

Plugs required, and if they need to go above or below counter.

Water fitting type as well as required pressure range.

Waste options and requirements for the setup.

Filters required for the machine (installed undercounter).

Coffee machine dimensions

1 x plug required above or below the counter

Requires 1 x CC38 filter installed under counter

3/4" BSP with a pressure range of 2.5 - 6 bar

Waste option is unavailable for this machine. Not required.

Undercounter space required

Allow space for the **scale management filter** to be installed in a cupboard underneath the machine. The filter unit dimensions are:

130 x 130 x 600 mm

Please note: Install requires a **60 mm diameter hole** central behind the coffee machine, which is at least **40 mm away from back** of the machine.
